EXPERIENCE

Software Engineer Intern @ Clever Counsel, llc.

April 2021 - May 2021 // San Francisco, CA // remote

- > Created a library of **insomnia** routes which can be used to accurately test application functionality. Utilized dynamic web tokens to create seamless access.
- > Reorganized and Refactored the entire **React** component library into a hierarchical page structure to build ease into navigation and improve application structure.
- > Refactored models, routes and forms written in **python** to use **flask-marshmallow**, shortening code and improving efficiency.
- > Added front-end and back-end error checking and testing for a serverless crawler utilizing **AWS lambda** function and **selenium**.

Master Lecturer/Instructor @University of the Arts & Princeton University

September 2012 - January 2020 // Philadelphia, PA // Princeton NJ //

Taught 3 classes a semester at each university.

- > Designed and led for credit classes in yoga, movement mechanics, and general wellness in the dance department.
- > Trained and mentored over 800 students in optimizing longevity of joints, breathwork, and various other kinesthetic awareness topics.

Corporate Wellness Consultant @Prasada/Deliver Me Wellness

September 2012 - January 2020 // Philadelphia, PA

- > Designed and implemented employee and executive wellness programs.
- > Measured employee engagement and attendance using software tools.

Yoga Teacher/Teacher Training Leader @various studios

August 2008 - January 2021 // Philadelphia, PA, NY, VT

- > Led regular classes, utilized Mindbody software to gauge attendance and manage studio financials, and taught theory, anatomy, adjustment, philosophy and various other topics at over ten accredited studios across the East Coast such as Amrita, The Yoga Garden, and Katonah Yoga.

PROJECTS

Warbler – a Twitter clone built using **Python**, **Flask**, and **PostgreSQL**.
[Github](#)

Jobly – a job application site built using **React** on the frontend. Backend is built with **Express** and **PostgreSQL**. [Github](#)
